## PROFESSIONAL PROFILE

Innovation oriented solution seeker, excited to be at the deployment phase of my new career as a web developer. I am an ambitious, assiduous, responsible and highly motivated team-player. Able to build a complete full-stack MERN web app from scratch, using the technologies: **JavaScript, React.js, jQuery, Handlebars, Node.js, MongoDB, SQL, Express.js, HTML, CSS.**

## EDUCATION

**CODING BOOTCAMP**  
2019  
@Elevation Academy

Full-Stack Web Development, including **JavaScript, React.js, jQuery, Handlebars, Node.js, MongoDB, SQL, Express.js, HTML, CSS, RESTful APIs.**

**ONLINE COURSES**  
2018-2020  
@LinkedIn Learning  
@Udemy

**Python, Linux, Windows Server, JavaScript Essentials, Google Tag Manager, Google Analytics, Redux.**

**SEO / WEBMASTER**  
2014  
@John Bryce

Web SEO Optimization, **HTML, CSS**, AdWords, Google Analytics, WordPress plugin management, social media basics, webmaster tools.

## PROJECTS

**REACT - BLACKJACK**  
[CLICK HERE](#)

The classic black-jack, retro looks, player places a bet and then chooses to HIT or STAND. [**React.js, Redux, Styled-Components**]

**REACT - CRM**  
[CLICK HERE](#)

Client Relations Management system with a database-based table and graphic analytics dashboard in a single page application. [**React.js, MobX, Node.js, Express, MySQL, Material-UI**]

**HACKATHON - WE DO**  
[CLICK HERE](#)

Wedding management platform. includes vendor recommendations and booking, budget tracker, user profile management, and guest management. [**React.js, MobX, Node.js, Express, MySQL, Material-UI**]

**REACT-TODOIST**  
[CLICK HERE](#)

User save a task, add due date, and assign a project. This is a mock-app that I created from a real app that I like: [Todoist.com](https://todoist.com) [**React.js, Bootstrap, Firebase**]
